It is whispered that some new

uncommissioned officers are to

be appointed in the Waco Light In-

fantry.

The firing of a pistol somewhere

near the jail last night, gave rise to

a wild rumor that Drayke had shot

himself in jail.

A large number of students and

alumni of Baylor-Waco University,

were in attendance at the funeral of

Professor Guinn.

The Christian church will doubtless

be crowded tonight to hear Prot.

Black. His subject is one in which

we are interested.

Notwithstanding the damage re-

ported from all other points, the

bridge of McLennan county seemed

to have suffered but little.

The hotels and hosteries of the city

were well filled yesterday, in conse-

quence of the delay of trials on the

various roads.

Yesterday morning the work-stalls

at the Waco Steam Laundry were

located on the high bank outside

the building, at their washing.

The Judge Guinn inquest yesterday

was short, sufficient evidence having

been taken in a few minutes to war-

rant his arrest for murder.

Parties thinking of going to Cal-

ifornia or Washington Territory can

get information greatly to their advantage by writing on J. E. Elgin & Co.

Elgin's branch did some good ser-

vice yesterday in a building spot, to

the disgust of some of those who wit-

nessed the plunges of the swimmers,

Grand and near Prof. Black's sermon

tonight on "Heaven and Hell." It is

one of the best sermons and you will

be highly instructed and entertained.

As to the quantity of melons and

other fruits that passed down the

several streams and turned

up have been under water above

the river require no small amount to

rebuild the sides and sewers that

have washed out through the

heavy rain of the replacing of the

bridges.

We present an inviting appear-

ance to the stranger after a rain.

The streets are clean, and with a few

exceptional places dry enough to

make walking not unpleasant.

The subject for discussion by Prof.

Black tonight at the Christian church

is "Heaven" and "Hell." He will

endeavor to show what and where

Heavens, and how we shall reach there, and also what and where hell is, and how we get there, and what we must do to avoid going there. At the conclusion of the sermon the ordinance of baptism will be administered.

Everything seems remarkably quiet among the citizens of the city. It is said, however, that the rains and washings of apparatus will be frequent occurrences in the future.

The Iron Turbine Wind engine ran with a wind and are more durable and gives better satisfaction than any mill in the market. Cost and very modest. A. Schröder's and by our own judge, Every one guaranteed.

Buy the Iron Turbine engine and the Buckeye Force pump, and you are sure to be pleased.

There is a strong impression among the business men of this city that all this fuss and flurry—this running to and fro by the Alliance committee is but a subterfuge by which to draw larger bids from the cities contending for the location of the intended enterprise. It is loudly hinted that the plants are virtually already located.

Last night, while the Editor of THE EXAMINER was bent over his table at work on perhaps the "dirtiest" proof sheet ever seen in a Christian printing office, a graceful little lady, of possible ten summers, fitted in and laid a sprig of fragrant night blooming jasmine upon his desk.

We caught but a brief glint at a beautiful face, which smiled sweetly over its own graceful act. May the little lady find her pathway an thoroughfare thickly strewn with the best blessings the Father's hand can bestow. It was indeed a rare treat for a tired man.

## Died From Paralysis.

The following from the Austin Statesman will be of peculiar interest to many of our readers. The sadness of such a death can only be realized by those whose experiences have brought them face to face with a like grief:

Mrs. Annie E. Alexander, of this city, formerly of Galveston, while attending the baseball game on Saturday, in company with her son, John E. Alexander, was attacked with a severe neuralgic pain in the head, resulting in a paralytic stroke from which she died at 11:30 o'clock last night. Her marriage with Mr. H. J. Lawless was solemnized by Rev. Dr. Shoot at 8 o'clock yesterday morning.

Besides her grief stricken husband there were present at her bedside at the moment of her death, a number of friends and relatives, among whom were her son and daughter, Mrs. Lotte Englund, of Waco, and her sister, Miss Sherwood.

## A WAR SPEECH.

A Mexican Judge Insults the Stars and Stripes.

EL PASO, TEXAS, August 31.—There is wide-spread excitement prevailing in the city on account of the cowardly assault yesterday, in Paseo Del Norte, of Judge Zubia, on United States Consul J. Harvey Brigham. Judge Brigham is a confirmed invalid, although after the attack he followed the Mexican judge to the door of his residence, which was slammed in his face and locked. Judge Brigham has sent the following telegram to Washington:

PASEO DEL NORTE, [August 31.] Dr. Porter, Assistant Secretary of State, Washington D. C.:—

Col. Cowart, of the Mescalero agency of New Mexico, has been here for several days, trying to recover horses stolen from the agency and brought and held in this place. We had all the proof necessary to identify the horses and after many days waiting Judge Zubia was appointed today to take up the case and try it. At 1 o'clock Col. Cowart and myself called at his court room and after remaining there until 5 o'clock, we then went to his residence to ascertain why he did not appear to try the case. Nothing occurred there of an insulting nature, as I can show, and when we were leaving his residence he ran out sometime or twelve feet from his door into the street and struck me from behind on the head, and I ran him into his house and told him I would hear from me again. This matter stands. This Judge Zubia insulted the United States Consul and myself while in the discharge of our official duties.

EL PASO, CO., 1881.

Col. Cowart sends a telegram to the Commissioner of Indian Affairs at Washington, concerning Brigham's story.

Our correspondent interviewed Consul Brigham this afternoon in regard to the affair. He quietly remarked that it was an international affair and a subject for diplomatic correspondence. It is not known what the motive of Judge Zubia was in assaulting Judge Brigham and it is believed that it is pure malice growing out of the cutting case, which was tried before Judge Zubia last summer. It is thought by some that a duel will be the result.
